Zapad na istoku

Zahod na vzhodu

Bosna in Hercegovina/Bosnia and Herzegovina, 2010; 22'

Zgodba o velikem ljubitelju narave, gozda, vode in astronomije, ki sam poizkuša zgraditi počitniško hišico in do nje pripeljati nenavadno gozdno vodo, oddaljeno 1200 metrov. Ob skromnih vzhodnih finančnih zmožnostih in zahodnih idejah pri gradnji svoje naravne oaze miru reciklira odpadne materiale in pri tem skrbno pazi na okoliško naravo. Na poti do svojega cilja se sooči tudi z nerazumevanjem in zasmehovanjem lokalne skupnosti. Iskrena resnica balkanskega ekologa.

The West in the East

The story of a great fan of nature, forest, water and astronomy, trying to build a bungalow on his own and connect a source of unusual forest water from 1,200 meters away to the bungalow. With modest Eastern financial capabilities and Western ideas in the construction of his natural oasis of peace he recycles waste materials, taking extra care of the surrounding nature. On the way to his goal he faces misunderstanding and mockery of the local community. Learn about a Balkan ecologist's honest truth.
